

Hello!

14.05.21

What a fantastic week we have had learning all about sushi! Big Stars even had the opportunity to make their very own sushi in a special cooking workshop. Next week we are learning about Koi Carp and why they are special to the Japanese culture.

Miss Barron and Mrs Dave.

## Our Big Stars group activities this week are...

- Making our own Koi Carp artwork – This will be a 2 stage process. I wonder if we can tell you about what we did?
- Playing initial sound silly soup – I wonder if we will be able to recognise the wrong initial sound that goes in our silly soup?

## Our Big Stars table top activities this week are...

- Making our own Koi Carp flags – I wonder if we can cut out the flag independently?
- Pegging up Koi Carp in order – I wonder if we can instantly recognise the number of spots and/or Numicon?

## Home learning ideas

Big Stars – why not try playing eye spy with initial sounds. I spy with my little eye something beginning with s... 'star!'

Little Stars- why not try exploring different sounds. If you bang on a pot does it make the same sound as if you bang on the floor? I wonder what makes a louder sound?

## In Little Stars we will be...

- Continuing to explore technology toys – this is something we are particularly interested in at the moment!
- Threading Pasta to make our own pasta necklaces. – I wonder how many pieces of pasta we can thread?
